Jigar Darji

Full-Stack Web Developer | PHP, Symfony, Syllus, Laravel, React.js, Node.js | API Integration & Scalable Web Solutions Expert | Building High-Impact Websites
Ahmedabad, Gujarat, India

Summary

6+ Years of Experience | Crafting Scalable Web Solutions

Hi! I'm Jigar Darji, a passionate Full-Stack Web Developer with 6+ years of experience creating high-performance, user-centric web applications. I specialize in PHP, Laravel, Symfony, React.js, Node.js, and Syllus development, building scalable and innovative web solutions that drive business growth. My expertise includes seamless API integrations, payment gateway setups (Stripe, Razorpay, PayPal), and DevOps tools like Git, GitHub, and AWS. Whether working with startups or growing enterprises, I craft custom solutions tailored to meet unique business needs.

I excel at solving complex challenges with analytical precision, leveraging my extensive technical expertise to fine-tune solutions. Whether you're a startup or a growing business, I focus on delivering impactful results by combining innovative technologies with a customer-friendly, yet professional approach.

Key Skills and Expertise:

Backend Development: PHP, Laravel, Symfony, Node.js
Frontend Development: React.js, jQuery, HTML5, CSS3, Bootstrap
Databases: MySQL, MongoDB
API Integration: REST APIs, Google API, Facebook API, Twitter API, domain register APIs
Payment Gateway Expertise: Stripe, Razorpay, PayPal, Authorize.Net, Paytm
DevOps & Tools: Git, GitHub, GitLab, Bitbucket, AWS administration, Linux server setup
Project Management & Testing: JIRA, Asana, Trello, PHPUnit, TDD, CI/CD pipelines

What Sets Me Apart?

Strong Communication: Seamless collaboration through clear and effective communication.

On-Time Delivery: Meeting deadlines with precision and quality.

Full-Time Availability: Dedicated to your project's success.

Long-Term Commitment: Building lasting partnerships with clients.

Problem Solver: Analytical mindset to tackle intricate challenges with ease.

Why Choose Me?

Expert in developing custom web solutions tailored to your business needs.

Skilled in integrating reliable plugins and third-party components for seamless functionality.

Commitment to providing scalable, secure, and innovative web applications that drive business growth.

Let's connect to discuss how I can help you bring your ideas to life and elevate your business to new heights!

DM me or send an email at jigar.webexpert@gmail.com – I look forward to collaborating!

Experience

Quarks Systems India

Backend Developer

August 2022 - August 2024 (2 years 1 month)

India

- Developed scalable APIs using Symfony and Laravel, improving system efficiency by 20%.
- Led integration of Stripe and PayPal payment gateways, enhancing the checkout experience for 500+ users.
- Optimized backend performance and reduced server response times by 25% through database optimizations and efficient code refactoring.

Aveosoft

Software Engineer

September 2020 - August 2022 (2 years)

Ahmedabad, Gujarat, India

- Developed and maintained robust web applications using PHP, Laravel, and Node.js, ensuring high performance and scalability for enterprise clients.
- Integrated third-party APIs such as Google API and Facebook API, improving user engagement and functionality across platforms.
- Optimized database queries and server-side logic, reducing page load times by 30% and enhancing the user experience.
- Collaborated with cross-functional teams to define system architecture, ensuring timely project delivery and client satisfaction.

Mobio Solutions

Software Engineer

January 2019 - September 2020 (1 year 9 months)

Ahmedabad Area, India

- Implemented automated testing strategies using PHPUnit and TDD, leading to a 40% reduction in bugs during production releases.
- Improved backend efficiency by refactoring code and optimizing database queries, reducing response times by 20%.
- Worked closely with the front-end team to ensure smooth integration between the backend and user interfaces, providing a seamless user experience.
